

Lab 1

Basic HTML and CSS: Web page design

Web Usability - COEN 163
4 units

2019

Due: Tuesday, January 22

Create the layout provided below using HTML and CSS only.

Requirements:

The webpage design must include the following:

- HTML elements: head - title - body - h1
- HTML5 elements: header - footer - nav - aside - section
- CSS: class selector - id selector
- The page must include a side bar column as shown
- Links must change into the green (*d1de44*) color as in the logo on mouseover
- Use Arial type family for text

Logo and dummy images are found on [Camino/Pages/Lab 1](#)

Use alternative text (make sure not to violate any copyrights)

Lab 1

Basic HTML and CSS: Web page design

Web Usability - COEN 163
4 units

2019

Deliverables:

- Validate HTML and CSS at:
<http://validator.w3.org>
<http://jigsaw.w3.org/css-validator/>
- Compress all HTML and CSS files into one .zip file.
- Submit .zip file at [*Camino/Assignments/lab1*](#)
- Submit a separate .pdf file with all codes you used,
- Use your [first name initial-lastname](#) to label both the compressed file and the .pdf code files.

Grade 5%
